

Sr. Software Developer

Serenic Software develops and delivers comprehensive, mission-critical cloud ERP solutions for public service organizations including: K-12 school districts/boards, public sector, non-profits (NPO), and international non-governmental organizations (NGO). Serenic also provides the #1 payroll and human resources software add-on for use with Microsoft Dynamics® 365 Business Central across many industries. Serenic is a Gold ERP and ISV vendor and a development partner for Microsoft.

Serenic Software is looking for a full-time Sr. Software Developer and the successful candidate will be able to build high-quality, innovative and fully performing software in compliance with coding standards and technical design for, but not limited to, our Navigator product lines. This team member will report to the Director of Technology and be involved in both the development of new Microsoft Dynamics Business Central-based solutions as well as the maintenance of existing solutions. The ideal candidate is a self-starter, team-oriented, and has a broad business background.

Primary Responsibilities:

- Responsible for development, maintenance, and 3rd-tier support of existing software solutions.
- Implement new software functionality.
- Contribute to the identification/clarification of requirements and the development of supporting use cases.
- Install product software as required.
- Perform software upgrades as required.
- Solve problems, analyze, and weigh alternatives and determine the appropriate course of action.

Qualifications:

Required Skills

- University degree or college diploma in Computer Sciences, or related experience.
- Strong verbal and written communication skills for technical and non-technical content.
- 5 + years of Microsoft Dynamics Business Central and/or NAV development experience.
- AL Experience.
- Knowledge of accounting application software, with knowledge of fund accounting and/or governmental experience a strong plus.
- Experience with SQL Server / DB2.
- Experience using Microsoft SQL Server Management Studio.
- Ability to multi-task, prioritize workload, self-motivate, and identify and mitigate risks.
- Excellent problem-solving and interpersonal skills performed in a manner that demonstrates a strong sense of collaboration and teamwork.

Nice to have

- Prior experience with Serenic Navigator and/or Serenic NaviPayroll.
- Subject matter expertise or knowledge of accounting practices is a strong plus.
- Experience with n-tier Client/Server architecture and/or Web Applications.
- .NET 4.0 programming experience in C#, VB.NET and ASP.NET a plus.
- .NET Core.

Serenic Software is an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status, protected veteran status, or any other characteristic protected by law.
